## Workshops

### Bridge Room 2 - The Great Safety Debate

- 1:00PM      Shaping towards Behaviour Based Safety by Matthew Strong  
Contributions by Alan Cheung & Andy Levette  
This presentation will set the scene for the approach, review the material used, illustrate progress to date and open debate regarding the next steps.
- 2:15PM      The Great Safety Debate - facilitated by John Austin

### Lewis Carroll 1 – Computer Based Instruction (CBI) & Feedback

- 1:00PM      Making CBI work using behaviour by Doug Johnson  
This presentation will examine the current knowledge about the effectiveness of CBI from a behavioural perspective and suggest future directions.
- 2:15PM      Creating a feedback rich environment - Step I by Allison Reynolds  
This presentation tracks the story of an improvement plan which sets out to change the behaviours of the leadership team to get them to implement an increased level of feedback within their teams over a six month period.

### Lewis Carroll 2 – Digital Pen Technology & The Analysis

- 1:00PM      Digital pen and paper by Simon Willcock & Steve Picken  
This presentation introduce the digital pen and paper as a behaviourally sound technology.
- 2:15PM      Data analysis for behavioural change by Breda Troy & Kevin Clayton  
This presentation will discuss how data from the digital pen was analysed to identify and prioritise performance gaps for action. And how Precision Training methods were applied to some of the focus areas.

### Kingsley Suite – Conference Wrap Up

- 3:00PM      Conference Wrap-up with Bruce Faulkner
